Llyn Gwynant Barns floor plan showing

## Table Plan B:

Tables banquet style for up to 100 people

This plan of banquet style seating for up to 100 people, uses all 12 of our 8 ft rustic wooden tables. The Top table in this plan (coloured green) is by the bi-fold doors and can seat up to 4 along the window side and 1 at each end. The long rows in that lean-to side of Big barn are made of 2 individual tables per row. Alternatively Instead of having the top table by the bi-folds, the green and orange tables will fit at the end of both rows in front of the bar. In this version of the plan each long row of tables is made up of 3 individual tables. If an additional top table is then required to seat another 6-8, it can be made of our 5ft plastic tables and positioned on the stage (with table cloths).

Please note that this plan will require the tables in front of the stage to be moved if you wish this area to become a dance floor later in the evening. Moving the furniture is your responsibility and requires several strong people to help you as these tables are heavy.
